Sophie Revillard
Photographer | France

**The Light of Others, Mrawk U,
Burma**
photograph

One of my callings as a photographer is to capture the particular radiance in people that make-up their exquisiteness. It is about catching beauty in its pure and raw form - which does not need particular conditions or a lightning system to be revealed. It is rather a matter of every one of us shining our Inner Light out bright and allowing the other to be reflected in it.
